

PROTOSTUDIOS FACE SHIELD

MADE IN
•
IOWA

The Protostudios Face Shield is manufactured under an FDA-compliant quality system using parts sourced from Iowa -- ***protects the facial area and associated mucous membranes (eyes, nose, mouth) from splashes, sprays, and spatter of body fluids***

This reusable clear polyester plastic face shield protects the wearer from transfer of microorganisms, body fluids, and particulate material. The shields are lightweight, durable; the medical grade foam headpiece adds comfort. The shield design allows space for the user to wear other desired PPE in conjunction with the shield. The shields come packaged in bulk, fully assembled, cleaned, and ready to use.

The halo is Polypropylene; clear guard is Polyester; foam is medical grade.
